

# Homeschool Week

## at the Science Museum of Virginia

We're kicking off the new year with a week of special programming for homeschool families!

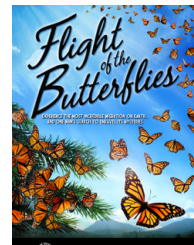

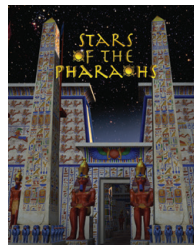

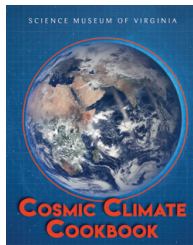

From **January 8 - 11**, we will offer two sessions of programming a day, one aimed at budding scientists and one for scientific explorers. We appreciate that families may want to stay together. When registering, pick the session that suits your family best and our educators will tweak activities as needed.

Each day will cover a different topic and will include a hands-on workshop, a Dome feature and time to explore the Museum's exhibits. Sign up for one day or all four!

Each session can accommodate 40 guests; advance registration is highly encouraged.

Below is the daily schedule and each day's theme and activities.

Admission for this special programming is \$18 per person, per day for non-members and \$14 for Museum members. If you do not want to view the Dome feature, admission is \$14 per person, per day for non-members and \$10 for Museum members. Please register all adults and children 3 and over attending a workshop. Register at [smv.org/homeschoolweek](http://smv.org/homeschoolweek) or call 804.864.1400.
